Sir:

[37 CFR § 1.97(a)]

* * *

As provided by 37 CFR 1.97(b), this information disclosure statement is believed to be timely filed for consideration by the Office because it has been filed by the applicant:

- ☒ (1) Within three months of the filing date of a national application other than a continued prosecution application under § 1.53(d);
- ☐ (2) Within three months of the date of entry of the national stage as set forth in § 1.491 in an inter-national application;
- ☐ (3) Before the mailing of a first Office action on the merits; or
- ☐ (4) Before the mailing of a first Office action after the filing of a request for continued examination under § 1.114.

The undersigned representative authorizes the Commissioner to charge any additional fees under 37 C.F.R. 1.16 or 1.17 that may be required, or credit any overpayment, to Deposit Account No. 01-2508/11042.0092.DVUS01.

* * *

This information disclosure statement is being filed in accordance with section 37 CFR § 1.97 and shall not be construed as a representation that a search has been made. [37 CFR § 1.97(g)]

The filing of this information disclosure statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, material to patentability as defined in 37 CFR § 1.56(b). [37 CFR § 1.97(h)]

* * *

In accordance with 37 CFR § 1.98 (a)(1), this information disclosure statement filed under 37 CFR § 1.97 includes (1) a list of all patents, publications, or other information submitted for consideration by the Office on the accompanying PTO-FORM 1449.

Copies of the listed documents are enclosed for the convenience of the Examiner. In accordance with 37 CFR § 1.98 (a)(2), legible copies of : (i) each U.S. patent application and U.S. and foreign patent; (ii) each publication or that portion which caused it to be listed; and (iii) for each cited pending U.S. application, the application specification including the claims, and any drawing of the application, or that portion of the application which caused it to be listed including any claims directed to that portion; and (iv) all other information or that portion which caused it to be listed.

* * *

In accordance with 37 CFR § 1.98 (3), this information disclosure statement includes:

☒ (i) a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR § 1.56(c) most knowledgeable about the content of the information, of each patent, publication, or other information listed that is not in the English language. The concise explanation may be either separate from the specification or incorporated therein;

☒ (ii) A copy of the translation if a written English-language translation of a non-English-language document, or portion thereof, is within the possession, custody, or control of, or is readily available to any individual designated in § 1.56(c).

A complete, English translation of the French Patent No. 2 653 144, number B1, is not available to the Applicants at this time. A copy of the original document is being filed herewith, along with a translation of the Abstract. However, Applicants will gladly provide a full translation of the reference should the Examiner deem it to be necessary.

As it is presently understood by the undersigned Agent, French Patent No. 2 653 144 is relevant because it discloses a method of constructing civil engineering constructions under railway tracks in use without the use of temporary bridges. "The uprights of the bearing gantries are columns sunk or cut in on either side of the railway track or tracks, the crosspiece being

either manufactured in place protected from the track support, or prefabricated and fitted in place using the track support, or prefabricated and positioned with a crane with interruption of the traffic on the track or tracks. The floor or floors are then prefabricated on either side of the tracks and positioned by sideways insertion.” See English translation of Abstract for FR 2 653 144.
